论证分析

正: Technology can inspire the intelligence of children, encouraging them to think and act creatively

正: Technology can help to realize our creative ideas.

正: Modern technology creates a sense of connection, contributing to the exchange of ideas among people all over the world - including children.

范文

When it comes to the creativity of children nowadays, quite a few people would claim that technology makes children become lazier than ever before. According to my rule of thumb, however, children's creativity has benefited considerably from modern technology.

段落	此段结构	本段首先交待背景，很多人认为科技让孩子变更比以前更懒惰。之后进行转折，反驳这种观点，科技让孩子更有创造力。
	此段功能	本段交代背景，提出观点，科技让孩子更有创造力。

First of all, computers and the internet inspire the intelligence of children, encouraging them to think and act creatively. The internet provides a huge amount of information that is related to the development of children - either physically or mentally. That allows children access to a wealth of knowledge they are interested in. For example, those children who like to invent new games can gain much knowledge from the internet, thus inspiring their creativity. In contrast, children in the past had limited opportunity to gain the newest knowledge they were interested in.

段落	此段结构	本段首句指出电脑和网络激发了孩子的智力，鼓励他们有创造性地思考和行动。之后通过演绎推理和具体事例进行证明。
	此段功能	本段通过举例，提出了第一条分论点，证明文章观点。

In addition, modern technology creates a sense of connection, contributing to the exchange of ideas among people all over the world - including children. Parents, who have already had decades of trial and failure in the field, would have a clear idea of what kind of

f knowledge and quality is required for the job. Parents, who have already had decades of trial and failure in the field, would have a clear idea of what kind of knowledge and quality is required for the job. This helps children hone their social skills creatively. Confronted with complex communication, children have to explore various new ways to deal with relationships. In the process, children are gradually learning how to make new friends and how to maintain old friendship.

段落	此段结构	首句提出了现代科技的第二条好处，即创造出联系，促进孩子们的观点交流。之后通过一起以前和现在的对比进行分析。最后总结重申了这点好处。
	此段功能	本段通过演绎推理，证明了现代科技的第二条好处，即创造出联系，促进孩子们的观点交流。

Last but not least, there are more methods and mediums for children to improve their ability of creativity. Plenty of online games, for example, are specialized for the development of children's creativity, thus help children improve their imagination and creativity while playing. Numerous books and magazines are published specialized in mental growth of children. Researchers are now exploring more better ways for parents who want to improve their children's creativity.

满分要素剖析

语言表达

本文长短句结合，流畅自然，很有节奏感。作者使用了正式性的词语和用法，非常符合学术性文章的写作风格。

That allows children access to a wealth of knowledge they are interested in. access to 表示通道，此处是让学生能够接触很多知识的意思。A wealth of 用的非常生动，表示数量很大。

In addition, modern technology creates a sense of connection, contributing to the exchange of ideas

among people all over the world - including children. A sense of 表示一种 XX 的感觉。后面使用了现在分词形式进行解释说明。破折号此处表示停顿，相当于逗号，表示补充说明。

逻辑结构

本文是总分总的结构。首段交待背景，给出观点，科技让人生活更好。中间用三个并列的段落提出了三个分论点证明观点。最后进行观点总结和重申。
